

a.) Amendment to the Specification

Please amend the paragraph starting at page 16, line 31 and ending at page 17, line 7 to read as follows.

Figs. 1 (A) – (C) explain a display device (25) according to the invention.

Fig. 1 (A) shows the display device (25) which is composed of a surface-protective layer (1), information display layer (3), reflective resin sheet (4) and a substrate-adhesive layer (5). Fig. 1 (B) is a plan view of the display device (25), which specifically shows that the display device illustrated therein is a number plate on a vehicle. The display device (25) is stuck on an installation substrate ~~(28)~~ (6) with a substrate-adhesive layer (5). The installation substrate ~~(28)~~ (6) in Fig. 1 is, specifically, a resin-made bumper of a vehicle, and for increasing the mounting strength, the device is preferably fixed with screws. Fig. 1 (C) shows the display device (25) as fixed on the installation substrate ~~(28)~~ (6).
